

Jennifer Godbout has over 20+ years of experience working in film doing safety and risk assessment, location scouting, leading a department. Gaining experience by working in remote settings in various industries from Heli skiing, avalanche forecasting, mining exploration, ranging from the arctic Tundra in Nunavut to month long glacial expeditions at the base of Mt Logan. She is known to be detail orientated in the moment and keep her eye on the big picture to execute what the client needs and ensuring the crew's safety is her top priority.

If you ask about what has gotten her to this point in her career. She will tell you it is having a good sense of humour, being highly adaptable and a strategic thinker.

In her spare time, she likes to be of service in her community as a member of the Whistler Search and Rescue Team.
