I'm a temporary resident with a Working Holiday Visa available in Vancouver, BC

I have three years of experience in the Italian commercial and short film industry, where I have developed a comprehensive understanding of the production process through a variety of roles both on set and in post-production. Over the course of my career, I have worked as a Director, Assistant Director, 2nd and 3rd Assistant Camera, Video Assist, Editor and Editor Assistant. As of today, I am committed to exploring the world of motion pictures in greater depth, broadening my creative and technical knowledge, and gaining a more comprehensive understanding of the art and craft of filmmaking.
